May 2009

Gentlemen Start Your Engines:

Last year you got in the field early and we had the late snow storm and you got back in the field about May 5. It looks like it will be the first part of May again before you get into the field in full swing. Please remember if you still plan on planting wheat, you should up the seeding rate to compensate for the late seeding date. Also, with the tighter breakevens, you need to stay current with your records and keep a constant vigil on your cash flow and marketing plan. Guessing will not be the answer, but having current accurate data throughout the year will *help provide you with the information needed in the decision making process. Don't get caught, Be a Manager, Stay Current and Make informed Decisions!!!!*

Marketing Club Meetings:

We will schedule the next meeting based on what the weather does.

Average Books:

Julie and I would like to thank all of you for your cooperation during this close-out season. If you have not received a Valley Average Book or a Region 3 Book, please feel free to call the office and I will mail one out to you as soon as possible. Julie's telephone number is 671-2174.

Have a Safe and Productive Month!!!
